

Market-based approaches for climate action in the agri-food value chain

10 September 2024

Pathway to climate neutrality

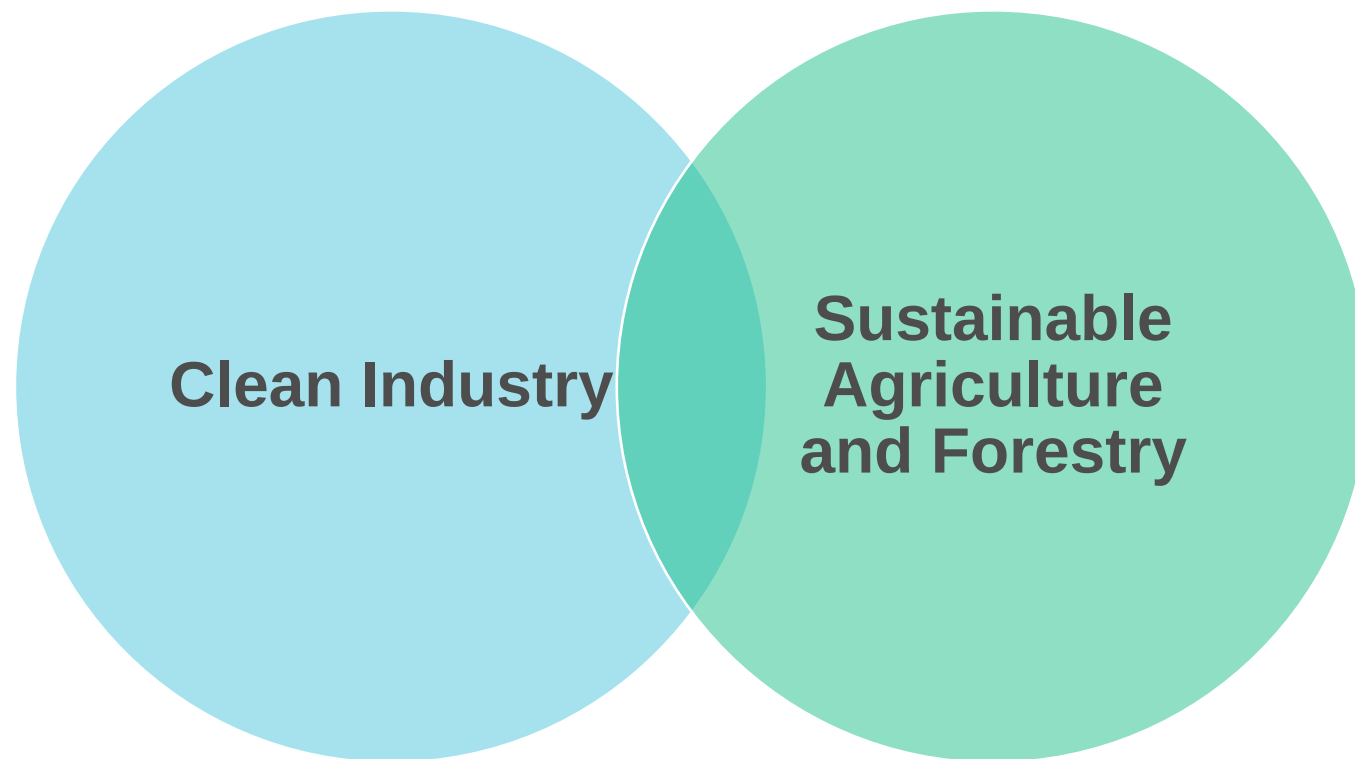

Historical and projected sectoral greenhouse gas emissions in the period 2015-2050

*Excluding non-BECCS industrial removals

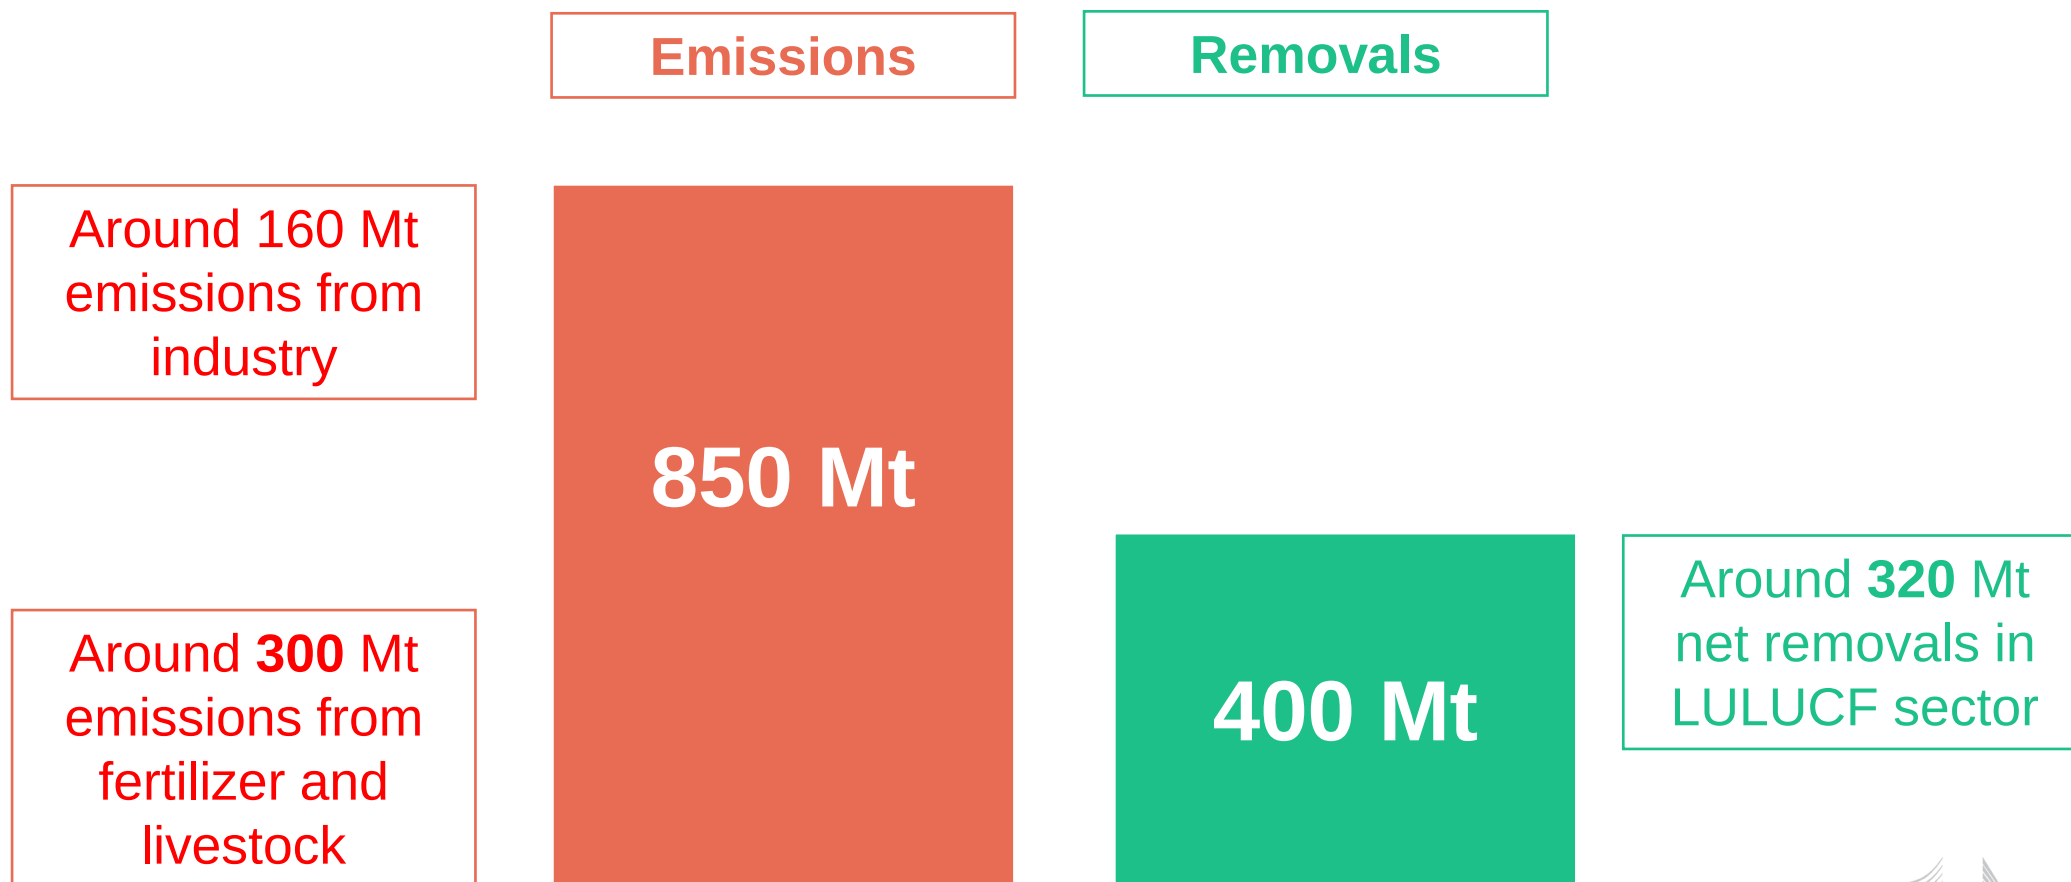

**Including bioenergy with carbon capture and storage (BECCS)

Two keys for climate neutrality

90 percent net emissions reduction in 2040

(compared to 1990)

Market-based approaches for climate action in the agri-food value chain
