

3rd Meeting of the Carbon Removals Expert Group

Industrial Carbon Removals

25 and 26 October 2023

Albert Borschette Congress Centre

Wednesday, 25.10.23

09:30 Registration and coffee

10:00 Welcome and introduction by DG CLIMA: Updates on activities, housekeeping + Q&A

10:30 Keynote: Importance of robust methodologies for CDR purchases [15 min]

10:45 Presentation of the technical scoping paper on methodologies for permanent removals [15min]

Industrial capture of carbon

11:00 Direct Air Capture [1h30]

- Presentation methodology DAC [15min]
- Comments + Q&A session [1h15]

12:30 Lunch break

13:30 Bioenergy with Carbon Capture [1h30]

- Presentation methodology BECCS [15min]
- Comments + Q&A session [1h15]

15:00 Coffee break

Transport and storage of captured carbon

15:30 Transport and geological storage [1h15]

- Presentation CCS Directive [15min]
- Comments + Q&A session [1h]

Methodology architecture

16:45 Methodology architecture [45min]

- Presentation by CCS+ Initiative [15min]
- Comments + Q&A session [30min]

17:30 Networking drinks

Thursday, 26.10.23

08:30 Arrival & coffee

Long term storage of captured carbon

09:00 Storage options for biochar [1h30]

- Presentation methodology biochar [15min]
- Comments + Q&A session [1h15]

10:30 Coffee break

10:45 Curing and mineralisation - permanent storage in concrete [1h30]

- Presentation methodology mineralisation [15min]
- Comments + Q&A session [1h15]

12:15 Lunch break

13:15 Long-lasting storage in bio-based construction products [1h30]

- Presentation of the technical scoping paper on methodologies for long-lasting storage in bio-based construction products [15min]
- Panel + Q&A session [1h15]

14:45 Coffee break

15:00 Improving certainty of verification: enhanced weathering and other emerging methodologies [1h00]

- Panel + Q&A session [1h00]

16:30 Concluding remarks by DG CLIMA
